

Greetings Wisconsin PBL!

WRAPPING UP THE YEAR

Businessmen and businesswomen of Wisconsin PBL, congratulations on making it through yet another semester of school! In this hectic time of the year, it can be easy to push aside the duties of PBL, but here are some reminders of what you could be working on to make life easier in the future!

Double check that you and your fellow club members are registered as members at the national and state levels! Advisers must go to <https://www.fbla-pbl.org/> and click "Register Members" in order to finish this process. Further instructions for registration and payment of dues will appear upon chapter login.

Start preparing for your events at SLC! It's never too early to start studying and practicing for the State and National Conferences. Both feature amazing opportunities for professional development and networking, as well as bragging rights and even possible cash prizes! This year NLC is in San Antonio, Texas, and features such attractions as the San Antonio River Walk, the Alamo, and SeaWorld! You won't want to miss such a fantastic opportunity, so make sure you've registered now!

Make sure to keep your calendars clear for April 12-13, this year's dates for SLC! As things are set in stone for the conference, updates will roll out. The state officer team is hoping to finalize details within the coming weeks so look forward to the schedule of events in the upcoming January and February newsletters.

NEW WEBSITE!

Wisconsin PBL is proud to boast of a new site!

The groundwork has been laid, and work is being done to develop our new site. Check out the progress that has been made at wipbl.org and make sure to email the state board at info@wipbl.org with any suggestions on content you want to see!

CMAP's!

If you haven't already heard of them, the Career & Membership Achievement Programs (CMAP) are always available to be worked on! Similar to FBLA's BAAs, this program is multi-tiered and gains you recognition on the chapter, state, and national levels. Check out the FBLA-PBL website for more details on these programs and get started today!
